

THE NEXT GENERATION WEIGHING SYSTEM FOR CONVEYORS

The LOADRITE® C-Weigh 1850™ takes your productivity to the next level.

The C-Weigh 1850™ is packed with features such as auto zero tracking, multiple idler weighing and enhanced system diagnostics, just to name a few.

Changes around connectivity allow integration with a wider variety of communication devices, making the reporting of productivity information and energy management even easier.

PLUS the C-Weigh 1850™ uses the same intuitive user interface as other LOADRITE® systems – so it's easy to learn to use!

For more information, call your local distributor today.
